Notice of Basic Agreement on Business Acquisition

UKC Holdings Corporation (hereinafter referred to as "the Company") reached a basic agreement to acquire the Dust Detection System (DDS) business from Tokyo Electron Taiwan Ltd. (hereinafter referred to as "TET"), a subsidiary of Tokyo Electron Ltd.

1. Outline of DDS business

DDS business consists of developing, designing, manufacturing, and selling equipment incorporating sensors that monitor energy loss resulting from dust on and temperature rise of solar panels, and data providing service on power generation efficiency. By suggesting the appropriate timing for cleaning solar panels, DDS business contributes to customers such as mega solar owners, EPC (Engineering, Procurement and Construction) companies, and O&M (Operation and Maintenance) companies to optimize their revenues and life cycle costs.

2. Reasons for the Business Acquisition

The Company deploys environmental business of selling solar panels and inverters. By adding DDS equipment on the product lines, business opportunities will expand. In addition, the Company could expect sales expansion to its customers in China and ASEAN with high business potential. Moreover, an entry in data providing service enables the Company to do solution-oriented business.

Taking these synergistic effects and new business creating effects into consideration, the Company decided on the acquisition of DDS business.

3. Outline of the Business to be Acquired

(1) Description of the Business to be Acquired

DDS Business

(2) Operating Performance of the Business

60 Million Yen (March 2015 Estimation)
